Brian Blasko is a highly motivated, nationally known speaker and trainer. His programs, inspiring individual and organizational growth, are some of the most sought after in the country. This celebrated author of *Cruisin' Through Life At 35 MPH* and *Sending Signals* has a Masters Degree in interpersonal communication, collegiate-level teaching experience, and is a member of the National Speakers Association, as well as NSA Ohio.

Christopher Joos, CPA is a Partner with the Continuing Care Group at Plante & Moran, LLP. His primary responsibility includes value enhancement services for the firm. Mr. Joos has over 18 years experience providing reimbursement, operational, budgeting, and process improvement consultative services to the long term care industry. He has extensive experience with Ohio Medicaid and Medicare reimbursement systems. In addition, he has assisted various LTC providers in identifying strategic direction and developing action plans. He received his Bachelor of Arts degree from Bowling Green State University. He is a member of the Association of Ohio Philanthropic Housing and Services for the Aging, the Ohio Society of Certified Public Accountants, American Institute of Certified Public Accountants and a member of Beta Gamma Sigma.

Dan Cavolo- Dan has project managed the selection and implementation of different EMR systems for three different continuing care facilities over the past three years. He has nine years of IT management experience. He has created disaster avoidance strategies, managed IT budgets, created IT strategic plans, and IT training programs for healthcare organizations. He is currently President and owner of the The Loyola Group, LLC (June 2006-Present) an IT services company founded to assist healthcare organizations with new IT initiatives and serving these healthcare organizations as a virtual Chief Information Office (CIO), IT Director, and/or IT project manager. He has a Masters of Business Administration from Cleveland State University and a Bachelor of Science in Finance, from the University of Dayton.

Roland Hornbostel As Deputy Director for Policy and Programs for the Ohio Department of Aging, Roland P. Hornbostel is responsible for the development of state government policies and programs for Ohio's elders. He represents the Department on interagency task forces coordinating health care and long-term care reform efforts for Ohio. He has worked in the field of aging for more than thirty years.

Dr. Govind Bharwani currently works as an ergonomics consultant with the Nursing Institute of West Central Ohio (a collaborative effort between the College of Nursing and the College of Engineering at Wright State University). He earned his Ph.D. in Biomedical Engineering from Wright State University, and he teaches courses in Industrial Ergonomics, Six Sigma, Kaizen/Lean Quality Improvement Methods, and Occupational Safety and Health. In his healthcare consulting, Dr. Bharwani has effectively applied engineering principles (primarily in ergonomics, human factors, and biomechanics) to the long-term care environment, resulting in significant reductions in resident falls, while also enhancing the valuable engagement of employees and the meaningful connection with residents.

Dr. Robert Applebaum is a Professor in the Department of Sociology and Gerontology and Director of the Ohio Long-Term Care Project at the Scripps Gerontology Center, Miami University, Oxford, Ohio. He holds degrees from Ohio University (BA), the Ohio State University (MSW), and the University of Wisconsin-Madison (Ph.D.). He has been involved in the development and evaluation of long-term care programs across the United States for more than two decades. He has worked with a number of states on innovations in long-term care service delivery, and completed a series of state and national studies on long-term care quality.

Judith Vogel has over 36 years of nursing experience in long-term care in various positions. Prior to becoming a consultant, she was the Director of Nursing for over 18 years in a large highly skilled facility in the Cincinnati area. She has first-hand knowledge of the day-to-day operations and challenges of overseeing the nursing staff and implementing systems to deliver high quality care and achieving customer satisfaction and survey regulatory compliance. Ms. Vogel's consulting work over the past 18 years includes assisting nursing facilities in managing their day-to-day operations in regulatory compliance, reimbursement optimization, and in-facility workshop and seminar presentations. Judy has developed and presented educational programs regarding certification compliance and clinical issues to long term care providers, including all members of the interdisciplinary team.

Kelton Swartz is an Associate with Plante & Moran's Senior Care and Living Services Practice, offering solutions to meet the challenges and opportunities in the long-term care industry, particularly those dealing with reimbursement and operational outcomes. He has worked with the M_xManage (pronounced 'max-manage') Quality and Financial Stat tool for 11 years and is now the lead business developer for this dynamic product. He is also actively involved with many national and state long-term care trade associations across the country, including ACHCA. Kelton has numerous provider success stories based on their M_xManage utilization in their efforts to achieve optimal reimbursement and have access to quality reports beyond CMS indicators, in real-time, all year long.

Leah Klusch is the founder and Executive Director of The Alliance Training Center. As an educator and consultant, she has extensive experience in presenting motivating programs for a variety of health care professionals. Her dynamic style, sense of humor, and innovative ideas make her a highly sought after speaker and recognized nurse leader in the health care industry. Leah believes in focusing on learning, not teaching. She is currently lecturing on a national, state, and regional basis on issues relating to care delivery, regulatory compliance, leadership, re-engineering, facility planning, and management, documentation, wellness, restorative care giving, assessment and assessment documents, payment and reimbursement issues.
